**User's guidelines at Myra House & Living Water Farm:**

*\*Living Water Farm, a newly designed micro farm on the north-east corner of the Myra House. The name was after our living water pond which biologically-balanced living assists irrigation watering for edible crops and fruit trees. The soil was cultivated with our homemade fertilizers, in-house collected green manure, and earthworms. We grow good quantities of various vegetables and herbs in a year-around sequential yield technique. The farm also fosters natural management of pests, diseases, and weeds by inter-planting and clustering fruit trees.*
